

It is something that we need to be grateful for, that GUNANUSA has received the award with the title "SILVER" from the Ministry of Energy and Mineral Resources through the Directorate General of Oil and Gas, for its performance in the use of domestic products in upstream oil and gas business activities.

PTG was the only EPCI Contractor in Indonesia who was awarded by Dirjen MIGAS with the prize which shows our commitment to upheld local content and ADP (Appreciation to Domestic Product, or APDN Apresiasi Produk Dalam Negeri),

This award was received directly by Pak Eddy Rijanto as President Director of PT GUNANUSA in an event organized by the Director General of Oil and Gas on Wednesday, August 15, 2018 at Hotel Bogor Icon, Bogor. The event was themed "Invitation to Launch the Domestic Production Appreciation Book (APDN) of Oil and Gas and Awarding Performance for the Use of Domestic Products in 2017 Upstream Oil and Gas Business Activities and the Promotion of Online Oil and Gas Support Business Skills (SKUP)".

The purpose and objective of this event is to foster and supervise the use of domestic products as mandated by the ESDM Minister's Regulation No.15 of 2013 concerning Increased Use of Domestic Products in Upstream Oil and Gas Business Activities and the mandate of the ESDM Ministerial Regulation No.14 Year 2018 concerning Oil and Gas Supporting Business Activities.

The Assessment / Assessment process of commitments and performance in the use of Domestic Products has been carried out during the period of August 2017 by PT. Surveyor Indonesia (Persero) as the party appointed by the Director General of Oil and Gas to monitor and collect data on Reward / Punishment Activities for the Use of Domestic Products in Upstream Oil and Gas Business Activities.

Aspects assessed include aspects of corporate commitment, aspects of corporate planning, aspects of corporate implementation, and aspects of corporate reporting in supporting the use of domestic products. The acceptance of this award is expected to further strengthen the company's commitment to the use of domestic production in line with government policy and further increase the KKKS's trust in PT. Gunanusa to work on EPC projects and improve the competitiveness of PT. Gunanusa among Service Providers in the scope of upstream oil and gas business activities.

Gunanusa BISA !!! (SPR)
